Think of this menu map as a "snapshot" of the major Q-Link services available as of September, 1988. Tack it up on the wall above your computer, or keep it close at hand on your computing desk for easy reference to the many different areas on Q-Link.

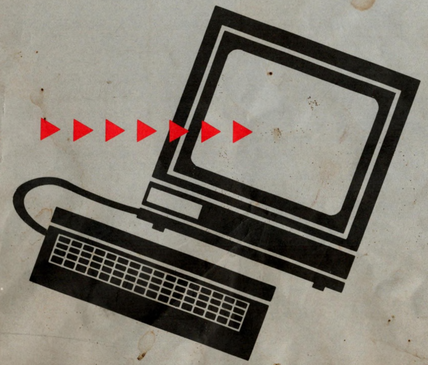
The map is organized by the eight Q-Link departments. Main menu selections in each department are set in bold type. Each lower menu level is set up in indented form — that is, indentation of a line means that the selection will be found on a lower "level" of menus.

For example, if you want to find out about billing procedures, you would see the following "path" in the map of the Customer Service Center:

CUSTOMER SERVICE CENTER
Members' Online Guide
Billing Information

This guide doesn't include every menu option or Q-Link service — it *does* show the major highlights of each department. Because Q-Link is always growing and changing, the best source of information about new services will always be found online in the Customer Service Center's Members' Online Guide.

Q-Link Menu Map



PEOPLE CONNECTION

People Connection is the social center of the Q-Link system, where you can meet other Q-Link members, compete with game enthusiasts, join like-minded people in special-interest rooms, or get a front-row seat at People Connection Auditorium events!

Rooms

People Connection is divided into "rooms."

Up to 23 people can be in a room at the same time. When you first enter People Connection, you automatically go to one of the Q-Link Lobbies. From there you can go to another occupied room or create a new one, by pressing the F7 key and choosing the **Change rooms or enter Box Office** option.

You may choose to create a private room and invite your friends to join you there. Private room names are not listed, and other Q-Link members will not be aware of their existence unless you personally invite them into a room.

You can see a list of all occupied public areas by choosing the **List all occupied public rooms** option. Once you are in a room, you can find out who else is there by choosing the **List all people in current room** option.

The Auditorium

The Q-Link Auditorium is a special room that is used for forums hosted by guest speakers and for special meetings. To find out about upcoming events, check the Calendar of Events in your monthly *Q-Link Update* or press the F7 key, select **Change rooms or enter Box Office,** then select **Enter the Box Office.**

In the Auditorium, you may ask questions of the speaker by pressing the F7 key and selecting the **Ask a question** option. Your questions will be sent to the speaker and answered in the order they are received.

Keeping in Touch with Friends

Trying to find one of your Q-Link friends online? Press F7 and select the **Locate Someone** option from the menu. Q-Link will tell you whether that person is currently signed on and, if so, where the person is located online.

To find out more about your Q-Link pals, press the F7 key and select the **Identify Someone** option to find out where they live.

Playing Games

To start a game, select **Play or observe a game** from the People Connection menu, then select the game you want to play by pressing F1. Enter the name of the person(s) you want to play with and press the RETURN key. NOTE: Your opponent must be in the same "room" as you. Follow the screen prompts and have fun!

Online instructions are available for many of the games; you can see them by pressing F7 and selecting **Game Instructions.**

To enter RabbitJack's Casino, you need the special RabbitJack's Casino Disk, available for sale in The Q-Link Store in The Mall.

For complete instructions for all games, check online in the Customer Service Center's Members' Online Guide under Q-Link Game Instructions, or in the Online Games area of Just For Fun's QSociety.
